EDUCATION

Delhi Technological University

B.Tech in Information Technology (CGPA: 8.54/10)

2023 – 2027

New Delhi, India

KIIT World School

CBSE Class XII (96.2%) / Class X (95.4%)

2022 / 2020

New Delhi, India

EXPERIENCE

Tsubasa Technologies Pty Ltd. (Australia)

Jun. 2026 – Present

AI Product Engineering Intern

Remote

- Leading the **AI-assisted development of SparkPTE**, translating product requirements into content schemas, scoring rules, practice workflows, acceptance criteria, and Android test plans.
- Transformed and validated **1,927 questions and 1,485 media assets across 22 PTE question types**, producing structured app-ready content.
- Delivered workflows for all 22 question types, a searchable Question Bank, guided lessons, and a **65-question full mock test** with deterministic objective scoring, progress persistence, and detailed review flows.
- Led the Spark Focus UI/UX redesign and conducted physical-device testing across navigation, audio playback, recording, keyboards, responsive layouts, and Light/Dark appearance on Android.

Stealth Startup (US-based)

Feb. 2026 – Jun. 2026

AI Engineering Intern – Founding Team

Remote

- Built the initial functional version of a real-time **Voice AI restaurant-ordering agent** in Python, integrating LiveKit, speech recognition, LLM reasoning, structured tool execution, and streaming speech synthesis.
- Integrated **Twilio** for inbound calling and developed MongoDB-backed tools for menu search, modifier selection, cart updates, and structured order placement.
- Tested transcription, interruption, incomplete-order, and tool-execution failures; later supported a senior engineer-led redesign through scenario testing, failure analysis, and structured product feedback.

PROJECTS

Manga-Splasher | [GitHub](#) | [Live Demo](#) | *TensorFlow, Pix2Pix, U-Net, OpenCV, Streamlit*

- Built and deployed a Pix2Pix-based manga colourisation system using a **U-Net generator**, PatchGAN discriminator, TensorFlow training and checkpoint workflow, and a Streamlit interface.
- Prepared a **12,136-pair training pipeline** with LAB-space preprocessing; implemented generator inference, colour reconstruction, and output resizing to the original image resolution.

TECHNICAL SKILLS

Programming: Python, Java, C++, SQL

Machine Learning & CV: PyTorch, TensorFlow/Keras, OpenCV

Development & Data: REST APIs, MongoDB, SQLite, Streamlit

Voice AI & Agent Systems: LiveKit, Deepgram, Twilio, LLM APIs, structured function calling, streaming STT/TTS

Tools & Fundamentals: Git/GitHub, Codex, Claude Code; DSA, OOP, DBMS, OS, Computer Networks

LEADERSHIP & ACHIEVEMENTS

STEP DTU | Advisor; Project Lead – MentorLink

Jul. 2025 – Present

- Served as Joint Secretary (2025–26); coordinated mentors supporting approximately **300–500 students** across branches and helped organise an 80+ participant retreat.

Selected Achievements

- **7th Place** – NMG Labs Forge Sprint (Claude Code Edition).
- **Finalist** – HackWithIndia 2024 (Top 40/3000+ teams) and ImaGenAI, IIT Delhi (Tryst'25).
